Subject: Microsoft Settlement

Dear Judge Kollar-Kotally,

I do not approve of the Proposed Final Judgment in the MS case. First of all every one know the U.S. Court of Appeals ruled unanimously that Microsoft had clearly violated anti-trust laws. It was understood as well as established that the government was in the process of developing a plan the accomplished the following: abolish the illegal monopoly implemented by Microsoft, deny MS the fruits of its past violations, and last but not least prevent further anti-competitive activity or behavior by MS. To my bewilderment, I cannot yet fathom how it is possible the Department of Justice would agree to such an egregious settlement that for the most part goes against all objectives stated previously in the MS case. Logically this proposal does not accomplish what the U.S Court of Appeals set forth. Therefore I am submitting my disapproval of the Proposed Final Judgment in the Microsoft Case.

Sincerely,

Nils Trulssen
